PROJECT PROPOSAL
PEOPLES MERCY FOUNDATION
PROJECT NAME: SKILL TRAINING FOR TEENAGE MOTHERS IN UGANDA

DRAWN BY:
The Members, of
PEOPLES MERCY FOUNDATION
Kimaanya, Masaka Municipality, Uganda
P.O Box Masaka , Uganda

General Objective
To train 30 teenage mothers with vocational and entrepreneurship skills to restore hope and transform their future with socioeconomic empowerment.

Specific Objectives
a. To restore hope for disadvantaged teen mothers by ensuring they receive quality and competent skills to survive on and transform their future.
b. To establish and operate a skills training scheme for xx disadvantaged teenage mothers.
c. To provide technical tools and equipment for trained teen mothers so that they can be able to employ themselves, reducing the unemployment gap.
d. To transform the younger generation into job creators as opposed to job seekers, hence reducing poverty.
e. To reduce the crime rate in our communities

BACKGROUND INFORMATION
Peoples' Mercy Foundation is a nonprofit, nongovernmental organisation formed in 2002 to help the most marginalised, disadvantaged and neglected children aged between 0 and 19.

Vision
Education, basic health, taking action against vulnerable children, sensitizing children and communities about HIV/AIDS and vocational training

Mission
To form a functional,cohesive and committed NGO that will continuously help vulnerable children, fight the wide spread of HIV/AIDS and enable them to have improved standards of living.

Problem Statement
Teenage pregnancy in rural communities in Uganda is increasing at an alarmingly high rate. One in 3 teenage girls gets pregnant willingly or unwillingly. This has led to an increased number of school dropouts and prostitutes as many girls lack employment skills.

The COVID-19 pandemic, abject poverty in rural communities, domestic violence, and continued child abuse, sexual harassment, gender discrimination, forced marriages, and neglect have led to an increase in unwanted teenage pregnancies. In an effort to search for survival, these young mothers often turn to prostitution, drug abuse and robbery to support themselves, their babies and families. Prostitution, deaths due to abortions and HIV/AIDS, drug abuse, robbery, and girl child trafficking have become a major threat in our community.

Project Implementation Plan

The Skill Training for Teenage Mother sin Uganda project will empower 30 disadvantaged teen mothers with vocational training and skills to improve their socioeconomic lives forever.The mothers selected to participate will be those living in the worst circumstances, including poverty, being orphans, and having no guardians. The project will be carried out in community centers in very rural areas of Nyendo, Kimanya, Kinooni, Kyabakuza, Kijjabwemi communities of Masaka District in Uganda.

The 30 teenage mothers will be divided into three groups, according to the locations of their homes. 10mothers will be trained in tailoring, 10in hairdressing, and 10in craft skills such as making jewellery, bags, doormats, toys, sandals, etc. over a four-month period. Each group will also be trained in business and entrepreneurship to enable them to start and manage their own businesses.

Peoples Mercy Foundation will hire trainers to teach each class for 5 days a week in 20hour sessions. By taking the training to these communities, the mothers will not have to travel far distances and they will be able to participate with their children. After completion of the courses, each trainee will be given tools related to their training and in startup funds to enable them to start their own businesses. The sewing machines will be loaned to graduates of the tailoring course on a revolving basis.

One-Year Skills Empowerment Program Timeline (Uganda)

Phase	Timeline	Key Activities	Expected Outcomes
Phase 1: Mobilization	Month 1-2	Needs assessment, community engagement (LC leaders), participant selection (vulnerability mapping), trainer recruitment.	10-30 vulnerable young women enrolled.
Phase 2: Induction	Month 3	Orientation, life skills training (health, self-esteem), and initial skills aptitude testing.	Participants understand program goals and receive psycho-social support.
Phase 3: Core Training	Month 4-9	Intensive Vocational Training: Tailoring, Hairdressing & Crafts	Participants gain certified vocational hands-on skills.
Phase 4: Empowerment	Month 7-10	Business Skills & Literacy: Financial management, marketing, savings groups (VSLA), and digital literacy.	Increased knowledge of business management and savings culture.

Phase 5: Transition	Month 10-11	Mentorship, placement in internships, business plan development, and startup kit distribution.	Graduates prepared for employment or self-employment.
Phase 6: Evaluation	Month 12	Final assessments (DIT/UBTEB certification), graduation, and M&E tracking.	Certification and launch of new businesses/careers.

PUBLIC RELATIONS PLAN

- **Community Sensitization & mobilization:** Partner with local leaders, family support groups, and community – based volunteers (CBVs) to build trust, as this is crucial for reaching enrolling teenage mothers.
- **Storytelling & Success Stories:** Highlight the journey of beneficiaries from vulnerability to independence by showcasing how vocational skills in tailoring, hairdressing, or catering improve their lives.
- **Radio Advocacy:** Use local community radio stations to discuss the importance of supporting young mothers, addressing cultural stigma, and announcing enrollment drivers.
- **Showcasing Impact (Evidence – Based PR):** Use data from baseline assessments and graduation events featuring startup kit handovers to prove the project's success to donors and stakeholders.
- **Engagement Events:** Organize stakeholder meetings and community workshops to promote gender – inclusive leadership and encourage community ownership of the project.

Target Audience

- **Primary:** Young mothers/teen mothers (10-25 years) in rural and urban areas.
- **Secondary:** Local community leaders, parents, and family members.
- **Tertiary:** Potential donors, government agencies (district officials), and media partners.

Key Messages

- "Empowering young mothers is transforming the future generation"
- "Skills training for sustainable livelihoods"
- "From job seekers to job creator".

Key Activities

- **Launch Event:** A public launch with local leaders to create awareness.
- **Media Outreach:** Press releases and radio interviews featuring project coordinators.
- **Documentation:** Producing newsletters, flyers, and videos for social media showing training progress.
- **Graduation Ceremony:** A high-profile ceremony to showcase the skill sets acquired.

Project Sustainability Plan

Each graduate will be responsible to train 10 other teenage mothers assigned to them in their communities so that the cycle will continue. This process will continue so that more teenage mothers are rescued from the cycle of poverty and poor standards of living.

Monitoring And Evaluation

The programs coordinator, the field officer and project team will time monitor and follow up with trainees and trainers to ensure the smooth running of the project. Monthly progressive reports and annual reports will be made. Home visits will be carried out to ensure that the trainees are continuing to make progress. At the end of each course, trainees will be given an assessment to determine what skills and knowledge they have gained. An independent auditor will audit the project to ensure proper accountability of project funds.

Impact to the Community

1. Job creation that reduced unemployment and improves socioeconomic lives for teenage mothers and the communities' general standards of living.
2. Poverty reduction due to job creation and hence better lives in rural communities.
3. Reduction in crime rate, death rate, prostitution, abandoned babies and abortions.
